Presidency at the sacraments

Pre-course questions for participants to consider

Before you begin your face-to-face training sessions to expand your practice of sacraments, it will be helpful to review your experiences so far. You may like to simply ask these questions of yourself and think of your answers, or you may like to write down your answers.

Communion

1. When did I feel most alive when I participated in a Communion service? What single thing stood out for me?
2. Are there words said or heard in a Communion service which remain in my heart or head? What are they? Why have they been important?

And, if you have already presided at Communion:

3. Which experience of presiding at Communion stays happily in my memory and why?

Baptism

1. What does my baptism mean to me?
2. What service of baptism which I have witnessed stays in my mind as a deeply moving event? What happened? Why was it important?

And, if you have already presided at baptism:

3. Which experience of carrying out a baptism stays happily in my memory and why?
